OPERATING INSTRUCTIONS

KEY FUNCTIONS:

Selects Vibrating Alarm

Disable Alarm

Selects Audible Alarm

Stop Alarm + Illuminate Display

Zzz Snooze Alarm

Lock (disables all "Set" buttons)

Set Time

Set Alarm

1. TO SET TIME

Slide SET switch to "🕒". Press HOUR/MINUTE to actual time. If your **shake awake**® has an AM/PM display, "PM" indicator will appear when afternoon hours are in effect. After setting slide switch to "🔒" (LOCK), Slide switch to 12/24 HOUR before use.

2. TO SET ALARM

Slide SET switch to "🔔" (AL) appears on display. Press HOUR/MINUTE continuously until desired alarm time appears. After setting slide switch to "🔒" (LOCK).

3. TO ACTIVATE ALARM

Choose VIBRATING "🔊" or AUDIBLE "🔔" alarm. "🔔" will appear on display. When alarm activates slide ALARM switch to "🔒" to disable alarm or press "🔔" to stop alarm. ("🔔" will still appear and alarm will repeat every 24 hours.)

4. TO ACTIVATE ALARM WITH SNOOZE FUNCTION (Zzz)

Slide SET switch to "🔔". Press HOUR/MINUTE continuously until desired alarm time appears. Slide SET switch to "Zzz" position. (Z Z) will appear on display. Choose VIBRATING "🔊" or AUDIBLE alarm "🔔". When SNOOZE alarm activates press "🔔" to stop. "Z Z" will flash continuously and alarm will repeat every 8 minutes. To disable SNOOZE alarm return SET switch to "🔒" position. (Z Z) will disappear from display. (Note: To have SNOOZE alarm repeat every 8 minutes you must disable alarm within 1 minute from start. Flashing (Z Z) on the display indicates SNOOZE alarm is still activated.)

5. To press HOUR and MINUTE buttons at the same time for LCD fully display testing

(WARNING: No allowed continuing the vibrating alarm by manual more than 5 Minutes.)

REMINDER:

Replace AAA battery when the icon "🔋" appeared and flashing.
Replace 2-AA battery when the icon "🔋" appeared and flashing.
Put 2-AA battery into compartment first when replace battery.

NOTE: Jack on the right side is an auxiliary output jack for an optional **shake awake**® strobe light.
